

To Whom It May Concern

I have been going to Luana's classes for more than four years, and have known of her reputation for a lot longer than that. My mother-in-law attended Luana's line dancing classes at Kiwi Seniors, and all the old ladies really loved her. They said her classes were fun, but made you work.

Luana has been the best instructor I have ever had, and I've been going to exercise classes for more than twenty years. She gives excellent cues, she is energetic, she makes you work hard, and she takes care that you do not hurt yourself. But the best thing is that you don't even notice how hard you are working, because her music is so brilliant. She generally makes her own mixes, and everyone's favourites are the Pacific Island ones, as the beat really gets you going. We sweat harder for Luana than for anyone else, and always feel like we've had a great workout. Every single person in Luana's class loves her. And the most wonderful thing is when we do some Pacific dancing or salsa dancing as a part of our workout or cooldown. I don't know when I've seen such a diverse range of women shaking their hips and having huge fun while working out.

Luana is a person of high moral integrity, and is completely reliable and responsible. We, and I speak for everyone in her class, because we are all agreed on this, are very, very sorry to be losing her, but wish her all the greatest happiness in her new life.

Yours sincerely

Margaret Schofield , teacher, Taradale High School.
